Dear iNaturalist:

I am a Rails developer skilled in Ruby, Javascript, Backbone.js, Node.js, SQL, and I also know a little Python. I also hold a B.S in Mathematics from Sewanee: The University of the South and a J.D. from Rutgers School of Law: Camden. After a short stint in private practice, I have returned to mathematics through programming.

I have attached a resume containing links to my github and a few projects that I'm proud of. Please contact me if I can be of value to your company.

Best Regards,  
Coburn Berry
